Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Food Bank of the Rio Grande Valley, Inc. and its subsidiaries, which comprise the consolidated statement of financial position as of June 30, 2016, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audit contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Food Bank of the Rio Grande Valley, Inc. and its subsidiaries as of June 30, 2016, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

In our opinion, the supplemental consolidating information and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the consolidated financial statements as a whole.

FOOD BANK OF THE RIO GRANDE VALLEY, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016

NOTE 1 - NATURE OF ACTIVITIES

The Food Bank of the Rio Grande Valley, Inc. and Subsidiaries (Food Bank) is a Texas non-profit corporation that began operations in February 1986. The Food Bank's purpose is to collect and warehouse salvageable food and commodities and to distribute those items to various area social agencies which assist the needy within Hidalgo, Willacy and Cameron Counties. The social agencies receiving the goods are assessed a shared maintenance fee based on the weight of the items transferred to them. Funding is provided through grants from governmental agencies (primarily the U.S. Department of Homeland Security and the U.S. Department of Agriculture) and private foundations, as well as donations from civic and social organizations, businesses and individuals.

On March 17, 2005, the Food Bank of the Rio Grande Valley, Inc. (FBRGV, Inc.) created a Limited Liability Company (FBRGV, LLC) and became its sole member. In addition, the FBRGV, Inc. created a Texas Limited Partnership (Food RGV, LP) in which FBRGV, LLC became the general partner and the FBRGV, Inc. became the limited partner. Food RGV, LP was organized to acquire, develop, renovate and own the real property and improvements of the Valley Fruit and Vegetable Company building, (the Pharr building), located at 724 N. Cage Blvd., Pharr, Hidalgo County, Texas. This building is the new location of the current Food Bank operations. The purpose of creating these entities was to receive historical tax credit monies as an additional means of financing the renovation.

The Food Bank conducted a fundraising campaign to refurbish the Pharr building. As part of the rehabilitation effort, the Food Bank received Social Services Block Grant (SSBG) Emergency Disaster Relief funds under a sub-sub grant from the Texas Health and Human Services Commission (HHSC) through the Lower Rio Grande Valley Development Council to construct a large freezer at the Pharr building. The Food Bank filed a Notice of Federal Interest in December 2010 to formally recognize the government's ownership interest in the Pharr building and property.

The Food Bank combined existing funds with new loan proceeds from a financial structure that utilized New Markets Tax Credits available through a Federal tax-credit program established in year 2000 with the passage of the Community Renewal Tax Relief Act of 2000. A portion of existing Food Bank funds and the new loan proceeds paid for the remaining capital improvements to the Pharr building and land. To comply with the requirements of the tax credit programs, the Food Bank established a specified financial structure to complete the series of transactions necessary.

NOTE 1 - NATURE OF ACTIVITIES

Several new entities were formed to facilitate the loan and equity transactions. Following is a brief synopsis of newly-formed entities, their ownership structure, and transactions that took place on December 21, 2011.

- Food Bank will lease the Pharr building and land to FBRGV Landlord, LLC (Landlord) for a term of 55 years.
- FBRGV Manager, LLC (Manager) was formed as the manager and majority owner of profits interest in Landlord, the ground lessor of the Pharr building and property. Manager is a wholly-owned subsidiary of the Food Bank.
- The underlying ownership structure of Landlord is as follows: (a) Manager owns a 90% profits interest as the managing member, and. (b) FBRGV Tenant, LLC (Tenant) as a member owns a 10% interest in Landlord.
- Tenant is owned by Partnerships of Hope II, LLC, a sole member and managed by Manager.
- Partnerships of Hope II, LLC is owned by (a) Raza Development Fund, Inc., with a .01% profits interest as managing member and by (b) Chase NMTC FBRGV Investment Fund, LLC, with a 99.99% profits interest.
- Chase NMTC FBRGV Investment Fund, LLC is owned by (a) RDF Manager, LLC with a .01% profits interest as managing member and by (b) Chase Community Equity, LLC with a 99.99% profits interest.
- Landlord will lease the Pharr building and property to Tenant for a term of 19 years.
- Tenant will sub-lease the property to the Food Bank for a term of 15 years.

Part of the financing of the rehabilitation of the Pharr building facility came from loans from Partnerships of Hope II, LLC, to Landlord, for approximately \$11,145,000. The sources of funds for the loan are equity proceeds from Chase Community Equity, LLC, and debt proceeds from the Food Bank, using available funds. The loan is secured by a first leasehold deed of trust in Landlord's leasehold interest in the Pharr building.

On December 2011, Food Bank transferred to Landlord, cost of the Pharr land and building, including improvements, totaling \$5,589,313 for payment of \$8,634,936 from Landlord. The remaining \$3,048,402 was treated as extraordinary income on the books of the Food Bank.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidated Financial Statements

The accompanying consolidated financial statements includes the financial statements of the FBRGV Landlord, LLC. Significant inter-company transactions have been eliminated in the financial statements. The consolidated entity is referred to as the Food Bank.

Basis of Accounting

The Food Bank prepares its financial statements under the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Financial Statement Presentation

The Financial Accounting Standards Board (FASB) issued FASB ASC 958-205, "Not for Profit Entities-Presentation of Financial Statements." The Food Bank follows the provisions of FASB ASC 958-205. Under FASB ASC 958-205, the Food Bank is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted net assets.

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the organization and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets are subject to donor-imposed stipulations that they be maintained permanently by the organization, generally, the donors of these assets permit the Food Bank to use all or part of the income earned on any related investments for general or specific purposes. Currently, the Food Bank has no permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

For purposes of cash flows, the Food Bank considers investments available for current use with an initial maturity date of three months or less to be cash equivalents and all certificates of deposit, regardless of maturity, to be cash equivalents. The Food Bank maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits of up to \$250,000 under the Federal Deposit Insurance Corporation (FDIC). Management believes it is not exposed to any significant risk on cash accounts.

Shared Maintenance Fees

The Food Bank receives fees, from participating agencies, to assist in the costs of distributing food. These shared maintenance fees are based on a predetermined rate range of \$0 to \$.19 per pound.

Accounts Receivable

Accounts receivable represent amounts due from agencies and are stated at the amount the Food Bank expects to collect for shared maintenance fees and grants from government agencies. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. As of June 30, 2016, management has a reserve for losses on receivables in the amount of \$13,390.

Promises to Give

Unconditional promises to give are recognized as revenues or gains in the period received and as assets, decreases of liabilities, or expenses depending on the form of benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional. The Food Bank uses the allowance method to determine uncollectible promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made. As of June 30, 2016, the Food Bank had no unconditional promises to give.

Investments

The Food Bank carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities. Investment income and gains restricted by donors are reported as increases in unrestricted net assets if the restrictions are met (either a stipulated time period ends or a purpose restriction is accomplished) in the reporting period in which the income and gains are recognized.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventory

Inventory is stated at the lower of cost or market determined by the first-in, first-out method. Inventory consists of donated food and non-food items, purchased food, and commodities received from the United States Department of Agriculture (USDA). Donated food and related items were valued at \$1.67 per pound for the year ended June 30, 2016. This valuation is based on cost studies conducted for Feeding America. Donations to the School Tools program have been valued at market value. Purchased food is valued at latest purchase price. USDA commodities are valued based on published USDA fair market values. Inventory is typically written down at the end of the year to provide an allowance for a portion of donated inventory that will be trashed because it is unusable for consumption.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Gifts or contributions of property and equipment are recorded at the asset's fair market value at the time received. Depreciation is calculated using the straight-line method over useful lives of the assets, ranging from three to seven years for vehicles, office furniture and equipment and fifteen to thirty-nine years for buildings and building improvements. The Food Bank capitalizes all expenditures for property and equipment in excess of \$2,500. Maintenance and repairs that do not increase the useful life of the asset are expensed as incurred while major additions and improvements that do increase the useful life of the asset are capitalized. When items are disposed of, the cost and accumulated depreciation are eliminated from the records of accounts and any gains or losses are reported in the change in net assets.

Contributions

The Food Bank follows the Financial Accounting Standards Board's (FASB) FASB ASC 958-605. The provisions of the FASB ASC 958-605 state, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and nature of any donor restrictions. Restricted contributions are reported as increases in restricted net assets. When the restriction is met the amount is shown as a reclassification of restricted net assets to unrestricted net assets.

Donated Services

The Food Bank receives services donated from its members in carrying out its operations. However, no amounts have been recognized in the statement of activities since they do not meet the criteria for recognition under FASB ASC 958-605-25. The Food Bank received approximately 27,878 hours of services from approximately 2,695 volunteers for the year ending June 30, 2016. Volunteers assisted in sorting food items. No amounts have been recognized in the financial statements for these volunteer hours because they do not meet the criteria for recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Donated Property and Equipment

Donations of property and equipment are recorded as contributions at their estimated fair value at the date of donation. Such donations are reported as increases in unrestricted net assets unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Food Bank reports expirations of donor restrictions when the donated or acquired assets are placed in service.

Allocation of Functional Expenses

The cost of providing the various programs and other activities has been summarized on a functional basis in the consolidated statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Food Bank of the Rio Grande Valley, Inc. is exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code. It does not conduct any activities which are subject to federal income tax. In addition, the Food Bank qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2). FBRGV, LLC, a Texas limited liability company, qualifies and reports as a disregarded entity under federal income tax regulations. FBRGV Landlord, LLC is treated as a partnerships for federal income tax purposes.

The Food Bank's Form 990, Return of Organization Exempt from Income Tax for the years ending 2014, 2015, and 2016 are subject to examination by the IRS, generally for three years after they were filed.

Compensated Absences

NOTE 15 - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) ASC 820-10-50 establishes a framework for measuring fair value and expands disclosures about fair value measurements. FASB ASC 820-10-50 clarifies the definition of exchange price as the price between market participants in an orderly transaction to sell an asset or liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. The changes to current practice resulting from the application of this statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements.

FASB ASC 820-10-50 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs.

FOOD BANK OF THE RIO GRANDE VALLEY, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 15 - FAIR VALUE MEASUREMENTS

An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact, and (iv) willing to transact.

FASB ASC 820-10-50 requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability.

Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the assets or liability developed based on the best information available in the circumstances. In that regard, FASB ASC 820-10-50 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows.

- Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability at the measurement date.
- Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liability (for example interest rates, volatilities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

FOOD BANK OF THE RIO GRANDE VALLEY, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2016

NOTE 15 - FAIR VALUE MEASUREMENTS

Fair value of assets and liabilities measured on a recurring basis at June 30, 2016 is as follows:

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Quoted Prices In Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>June 30, 2016</u>				
Equity securities	\$ 16,236	\$ 16,236	\$ -	\$ -
Total	\$ 16,236	\$ 16,236	\$ -	\$ -

To estimate their fair value, the Food Bank uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities, in other words the market approach. The Food Bank did not have any significant transfers between levels 1 and 2 for the year ended June 30, 2016.

**INDEPENDENT AUDITORS’ REPORT ON INTERNAL CONTROL OVER
 FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
 BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
 ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
 Food Bank of the Rio Grande Valley, Inc. and Subsidiaries

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries (a nonprofit organization), which comprise the statement of consolidated financial position as of June 30, 2016, and the related consolidated statements of activities, cash flows and functional expenses for the year then ended, and the related notes to the financial statements and have issued our report thereon dated March 8, 2017

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Food Bank of the Rio Grande Valley, Inc. and Subsidiaries’ internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries’ internal control. Accordingly, we do not express an opinion on the effectiveness of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries’ internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

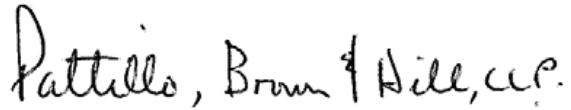

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Food Bank of the Rio Grande Valley, Inc. and Subsidiaries’ consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

 EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
 OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

Board of Directors
 Food Bank of the Rio Grande Valley, Inc. and Subsidiaries

Report on Compliance for Each Major Federal Program

We have audited Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' major federal programs for the year ended June 30, 2016. The Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' compliance.

Opinion on Each Major Federal Program

In our opinion, Food Bank of the Rio Grande Valley, Inc. and Subsidiaries complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the Food Bank of the Rio Grande Valley, Inc. and Subsidiaries is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Food Bank of the Rio Grande Valley, Inc. and Subsidiaries' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
